Naboi Maju St. No. 7, Bulu Nauli Complex, Sosor Gonting, Dolok Sanggul, Humbang Hasundutan, North Sumatera 22457, Indonesia

I am an IT enthusiast that currently looking for a job in the IT field. I have a huge interest in IT field especially in website development. I'm using several programming languages such as PHP, JavaScript, and SQL to build websites. I also have a good knowledge using PHP framework such as Laravel. I'm able to work independently or in a team, responsible, and learn new things quickly.

Work Experiences

PT. Investree Radhika Jaya Group - Jakarta, Indonesia

Aug 2022 - Dec 2022

Full Stack Engineer Intern

Investree is a financial technology company in Indonesia with a simple mission: to be an online marketplace that brings together people who have funding needs with people who are willing to lend their funds. Not only increasing Lender yields, Investree also make loans more affordable and accessible for Borrowers.

- Worked with the team in building an online book buying and selling platform called BukuKu with the integration of the Laravel Framework and other technologies such as Vue.js. This project became my final project during my internship at investree.
- Did well on all post tests and final projects so that in the end, i was included in the 3 best apprentices judged by the final grades obtained during the internship at the Full Stack Engineer division at Investree.
